<b>Comments</b>	The team started really well on the challenge. All members are active on the GitHub and have been assigned "issues". The desk research is meaningful and well summarized. The stakeholders interviews are adequate for this stage. In order to further advance and have enough data for your next assignment (empathy map) we advise you to conduct in-depth interviews with individuals that fit the profile of your end user. Hence, now you must take this decision, as a team.
